INTEREST AND EXPERTISE:

Interest: Valorisation of medicinal and aromatic plants in the field of drugs and cosmetics

Expertise: M.D. in chemical engineering, senior researcher in the technologies of isolation of pure substances and bioactive complexes of vegetal origin as well as coordinator of technological, analytical and pharmacological studies in order to obtain medicines and cosmetics from plants.

EXPERTISE OF DEPARTMENT

Department of Pharmaceutical Biotechnologies

- establishes technologies for bioactive products of vegetal origin;
- manufactures and offers products from medicinal and aromatic plants (pure substances, bioactive complexes, aqueous, oily, alcoholic extracts) for various uses;
- establishes microbial biotechnologies of producing and extraction for: aminoacids, enzymes, hormones, polysaccharides, vitamins, probiotics of human and veterinary use, biopesticides, biofertilizers.

EXPERTISE OF INSTITUTE

The National Institute for Chemical – Pharmaceutical Research and Development – ICCF, having a profile unique in Romania, was founded in 1949.

It has the following R&D departments:

- Organic Synthesis for Drugs of Human and Veterinary Use;
- Pharmaceutical Biotechnologies;
- Analytical Chemistry;
- Pharmaceutical Technologies;
- Pharmacology for Human and Veterinary Drugs;
- Chemical Reagents and Diagnostic Tests.
