- 15.45 **From the field to the car**  
Mr John Hobson, Hemcore, UK
- 16.15 **A case study in diversification: from hops to aromatic and medicinal plants**  
Dr Ray Marriott, Botanix Limited, UK
- 16.45 Discussion led by Chairman

There is a large market for renewable resources but progress has been limited and impetus is needed. In this interactive meeting current developments in the renewable raw materials sector will be examined, with case studies presented by keynote speakers from UK, Europe and from the automotive, lubricants, fibres, speciality chemicals and agricultural industries.

**There will be 3 BASIS points allocated to those attending this meeting.**

## How to get to Belgrave Square

### Directions to the SCI

From Hyde Park Corner ticket hall, turn right then right again. Carry on straight ahead up incline. At the top, turn left through a covered private road to Grosvenor Crescent. Turn right and straight ahead to Belgrave Square

**REGISTRATION FORM**

## Renewable Resources - Becoming a Reality

To encourage and support the interchange of information, knowledge and opinion between individuals, businesses and other organisations interested in any aspect of the development and application of chemistry and related sciences throughout the world

The Society of Chemical Industry (SCI) is an interdisciplinary network connecting industry, research and consumer affairs at all levels throughout the world. Founded in London in 1881 and New York in 1894, SCI provides opportunities for forward-looking people in the process and materials technologies, energy, water, agriculture, food, pharmaceuticals, materials, construction, and environmental protection areas to exchange ideas and gain new perspectives on markets, technologies, strategies and people.

To find out more about this unique society, tick the box on the form overleaf or contact:
